Microsoft Internet Explorer window titled "Edit Region". The address bar shows a URL from telstra.com.au. The page content includes:

- Radio buttons for "Use Query-Specific Column Names and Validate Query" (selected) and "Use Generic Column Names (parse query at runtime only)".
- A text input field for "Maximum number of generic report columns:" with the value "20".
- A dropdown menu for "Region Error Message" with the value "#SQLERR#".
- A "Conditional Display" section with a dropdown for "Condition Type" set to "- No Condition -", and two empty text input fields for "Expression 1" and "Expression 2".
- A "Caching" section with a dropdown for "Caching" set to "Not Cached", a dropdown for "Timeout Cache After" set to "1 hour", and a dropdown for "Cache Condition Type" set to "- Select Condition Type -".

The Windows taskbar at the bottom shows the Start button and several open applications including Office Communicator, Outlook, and Internet Explorer. The system clock shows 6:48 AM on a Local Intranet.

Microsoft Internet Explorer window titled "Edit Region". The address bar shows the same URL as the first screenshot. The page content includes:

- An "Authorization" section with a dropdown for "Authorization Scheme" set to "- No Authorization Required -".
- A "Customization" section with radio buttons for "Allow this region to be customized by end user:" where "Not Customizable By End Users" is selected. There is an empty text input field for "Customized Option Name".
- A "Configuration" section with a dropdown for "Build Option" set to "- No Build Option -".
- A "Comments" section with an empty text input field for "Comments".

At the bottom of the page, there is a footer with the text: "TSN Writedown", "Workspace: TSHOP User: C887954 Language: en-au", "Application Express 3.1.0.00.32", and "Copyright © 1999, 2008, Oracle. All rights reserved." The Windows taskbar shows the Start button and open applications including Office Communicator, Outlook, and Internet Explorer. The system clock shows 7:37 AM on a Local Intranet.
